

PLIWA Sal

Concentrate for the preparation of a working solution for surface and floor cleaning

Product description

Concentrate for the preparation of a working solution for surface and floor cleaning.

The product does not contain any additional fragrances.

Areas of application

Suitable for cleaning wipeable, smooth surfaces and floors such as tiles, laminate, PVC or linoleum as well as inventory.

Special advice

Read the safety data sheet before use.

Close the container immediately after each use.

When preparing the working solution, avoid overdosing the concentrate.

Before using the product for the first time, pre-clean the floor with clean water to avoid unwanted chemical reactions.

Shelf life

Prepare the working solution right before each cleaning procedure. After opening, use the product within 12 months.

The expiry date of the product can be found on the label. Do not use after the expiry date.

Storage advice

Store between 5°C and 25°C. Protect from sunlight. Store in a well-ventilated place. Store product upright. Keep away from food, drink and animal feedingstuffs. Store only in the original container. Keep locked up and out of the reach of children.

Application

Before cleaning, put on protective clothing/gloves and eye protection if necessary.

1) Prepare the working solution. Dose 1-2% depending on the degree of soiling.

Example for a 2% working solution: Mix 980 ml drinking water (max. 30°C) + 20 ml concentrate.

2) Cleaning: Wipe the surface completely and evenly damp with the use solution.

3) Wipe with a damp cloth and allow remaining moisture to dry.

The use of the two-bucket method is recommended.

Labelling according to Regulation (EC) No 1272/2008 (CLP)

UN 3082

For information on labelling according to Regulation (EC) No 1272/2008 (CLP) see safety datasheet and label.

Labelling according to Regulation 648/2004/EC on detergents

≥5% - <15% non-ionic surfactants
